FIBEROPTICX™ OCO Enclosures
NEMA Type 3 Compliant
Indoor/Outdoor Enclosure

SMP'S FULL LINE OF COST EFFECTIVE ENCLOSURES OFFER AN IDEAL SOLUTION FOR SMALLER INSIDE AND OUTSIDE FIBER OPTIC PLANT APPLICATIONS.

The OCO line of enclosures are designed to offer a compact and rugged design complete with many of the features you expect from a larger box yet at a competitive and economical price point.

The OCO6N and the OCO12N are ideal for quick patching applications. Both these enclosures easily accommodate SMP adapter plates offering up to 24 fiber ports on the OCO6N and up to 48 fiber ports on the OCO12N depending on the connector type. By using SMP's adapter plates, a multitude of termination configurations including SC, ST, LC, FC and MTRJ, in multi-mode or single mode can be achieved. In addition, the enclosure offers convenient cable storage hoops to assist with proper cable management and fiber bend radius requirements.

For applications that require patching and splicing capabilities, the OCO6NS and the OCO12NS not only accommodate the SMP adapter plates, they also feature a convenient small splice tray in lieu of the storage hoops. Cable management is replaced in the form of clips along the side of the inner walls to assist with cable storage.

Both enclosure sizes come standard with three grommet openings, including one 1" conduit adapter. Additional conduit adapters may be ordered separately for either 3/4" or 1" conduit. They also come standard with a tamper resistant fastening system that will accept a padlock and both enclosures are NEMA Type 3 compliant.

As with all SMP Data Communications products, the FiberOpticx™ OCO product line is backed by a 15 year out-of-the-box warranty. For more information about the OCO enclosures from SMP, contact our Customer Service team directly at **800.880.7674**.

| SMP Part No. | Description |
|------------------------|--|
| OCO6N | Wall Mount Enclosure, NEMA Type 3 compliant, holds 1 SMP adapter plate, includes fiber storage hoops |
| OCO6NS | Wall Mount Splicing Enclosure, NEMA Type 3 compliant, holds 1 SMP adapter plate, includes splice tray |
| OCO12N | Wall Mount Enclosure, NEMA Type 3 compliant, holds 2 SMP adapter plates, includes fiber storage hoops |
| OCO12NS | Wall Mount Splicing Enclosure, NEMA Type 3 compliant, holds 2 SMP adapter plates, includes splice tray |
| 10801301 | 3/4" Conduit adapter |
| 10801201 | 1" Conduit adapter |
| Dimensions (H x W x D) | |
| Height | Width |
| 10.3" | 7.7" |
| Depth | 4.2" |
